Dear Sir / Madam

**UPDATE TO FOOTWAY RESURFACING AND JUNCTION IMPROVEMENT WORKS –
DUNDAS STREET**

I am writing to update you on the footway works currently taking place on both sides of Dundas Street, between the junction of Great King Street and the junction of Heriot Row/Abercromby Place.

As you may remember from my previous correspondence, these works were due to complete on 26 March 2021. However, I must inform you that the works will not be completed on this date and are now planned to finish on 31 May 2021. This unfortunate delay has been caused by several factors and I am working closely with the contractor to resolve some productivity and quality issues.

To facilitate the continuation of the works, the current Temporary Traffic Regulation Order (TTRO) will be extended to cover the increased period; this will allow the closing of various roads and junctions and the suspension of on-street parking as necessary. As also noted previously, the works will be carried out whilst maintaining pedestrian access to properties at all times. Access requirements in the event of road closures will be maintained as far as practicable and any associated diversion routes will be appropriately signed.

Arrangements have been made with the Council's Waste Team to ensure refuse collections are maintained. Please note that the communal waste bins have been temporarily relocated to facilitate the ongoing works. This is a temporary arrangement and the bins are currently located at the Eastern junction of Northumberland Street and adjacent to the Tesco store. During subsequent phases of the works the bins will be relocated again and returned to their original location upon completion of the works. Individuals with private waste disposal arrangements should contact their provider to ensure arrangements are in place during the extended work period.

I apologise for the disruption this extension to the works may cause and please be assured that every effort has been made to minimise any ongoing impact this may have on residents and members of the public.

If you have any questions or require any further information, please contact the Project Manager, Martin Watson at martin.watson@edinburgh.gov.uk or the contractor Luddon Construction Ltd on 0141 945 2233.

Martin Watson, Engineer, Transport Contracts and Design, Place,
Waverley Court, 4 East Market Street, Edinburgh EH8 8BG
